

SEXUALIZED BEHAVIORS PROGRAM

Since 1998, Brandon's Sexualized Behaviors Program has been providing assessment and treatment for boys who have violated the boundaries of others with behaviors of a sexual nature. Boys admitted to the program receive a specialized set of treatment services including intensive individual, group and family psychotherapy. Staff are specially trained in working with boys who have significant boundary issues. This self-contained, staff-secure program has electronic security systems in the home to maximize safety. Using a relapse prevention model with intensive, specific, ongoing treatment in a highly structured milieu, boys progress through a five stage program with formal stage reviews occurring upon completion of each stage.

Goals of Sexualized Behaviors Program:

- To eliminate problematic sexualized behaviors and maintain safety
- To provide comprehensive treatment and intervention to boys with histories of inappropriate sexualized behavior
- To develop and implement treatment plans that encourage active participation by parents and/or guardians
- To provide regular communication regarding treatment progress to child, parents and other collaterals
- To work toward reunification with family or other permanent setting

Special Features of Sexualized Behaviors Program:

- Issue-specific treatment plans
- Relapse prevention model
- Self-contained program
- Electronic security systems in the house to maximize safety
- Intensive, specific, ongoing group psychotherapy
- Highly structured milieu
- Individual and family psychotherapy
- Issue specific treatment plans and specialized academic programming
- Intensive treatment using a multi-disciplinary approach with emphasis on safety
